

DOWNLOADING eDRAWINGS®

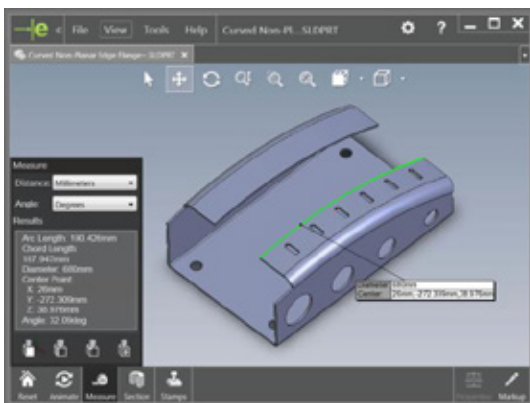

Overview

SolidWorks is one of the main design tools used by Cambridge Design Technology. A very powerful communication tool available to us, allows the ability to share our design output with our clients allowing you to view, spin, zoom, hide/show components and assemblies and measure the 3D CAD models created by us.

This tool is eDrawings®. This is a free download provided by SolidWorks. This gives you the ability to interact with the designs created for you and allows you to immerse yourself into the designs.

You can also open different types of files. You will also be able to open files created in Creo (Pro/ENGINEER), CATIA, Autodesk Inventor, and also manufacturing files like 3D printer "STL" files, 2D DXF/DWG drawing files, and 3D manufacturing formats, "STEP" and "IGES".

eDrawings® is available for PC and Mac iOS for tablets.

If you don't have access to a PC loaded with eDrawings®, don't worry, we can send you a self-extracting file to help you. All you will need is internet access and we'll do the rest for you.

The following pages walk you through the process of downloading eDrawings®

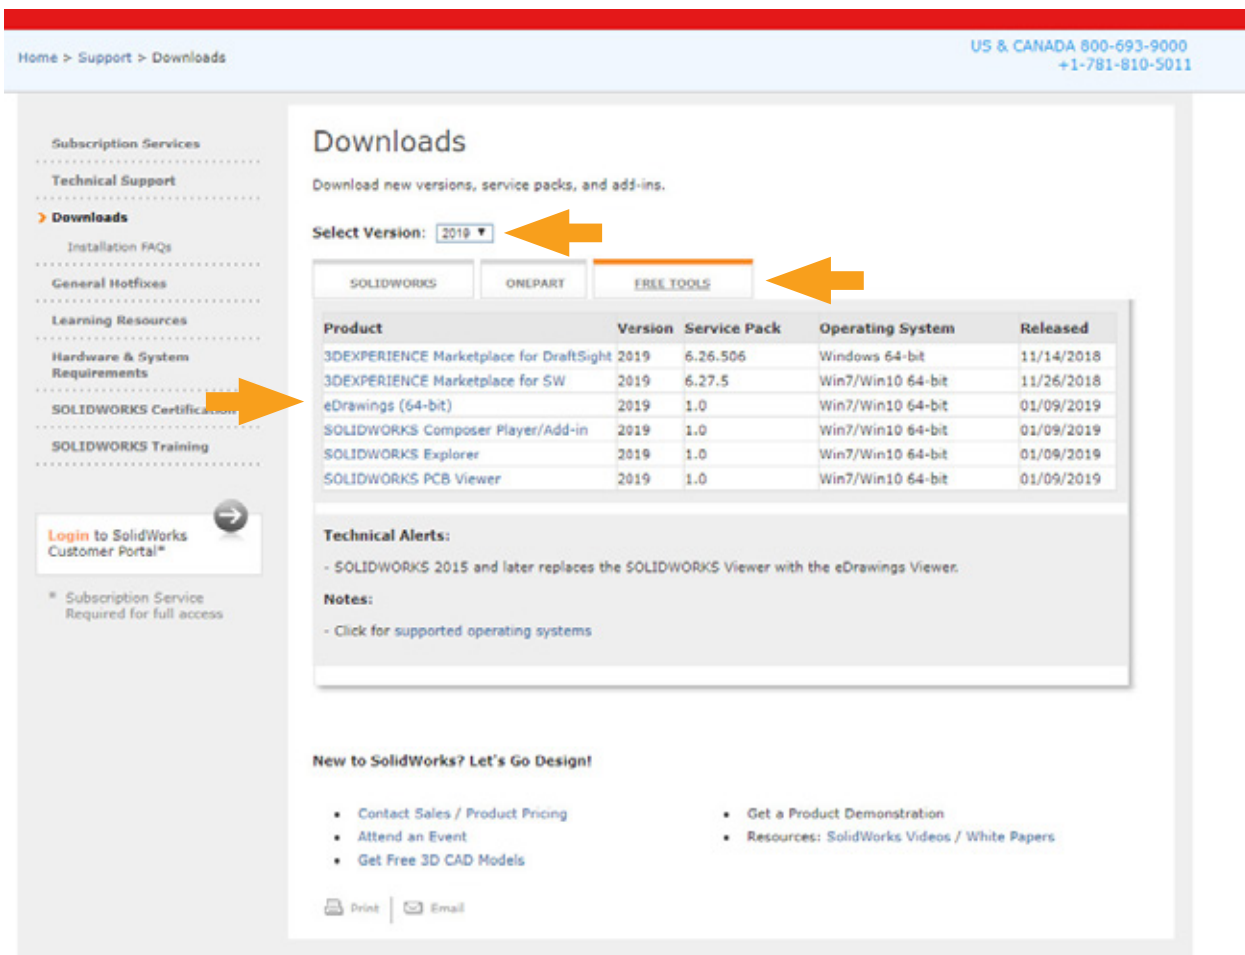

Downloading the app

To begin, open your browser, (Google Chrome, Microsoft Edge, Mozilla Firefox or whichever browser you choose to use).

Open the following link: <https://www.solidworks.com/sw/support/downloads.htm>

You will see the following page, click on the <**Free Tool**> tab. If you know you want to download a previous version, 2018, 2017 etc, click on the <**select version**> cell and choose the version required.

Click on the link < **eDrawings (64-bit)** >

Print | Email

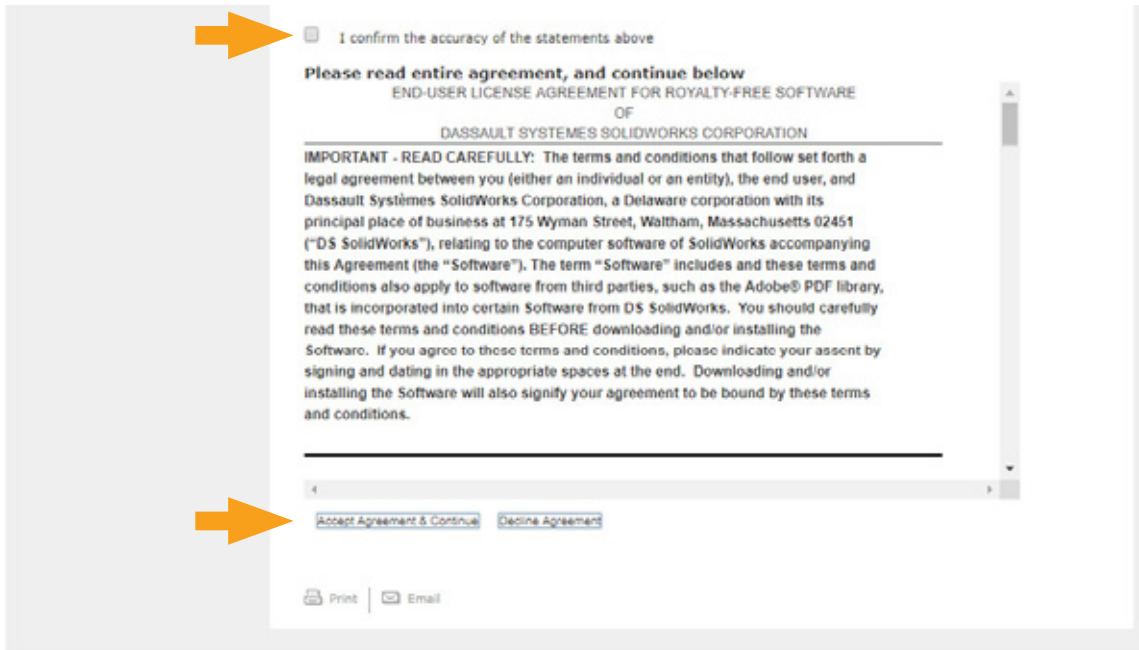

Then check the < **eDrawings Viewer only** > option and then click < **Next** >

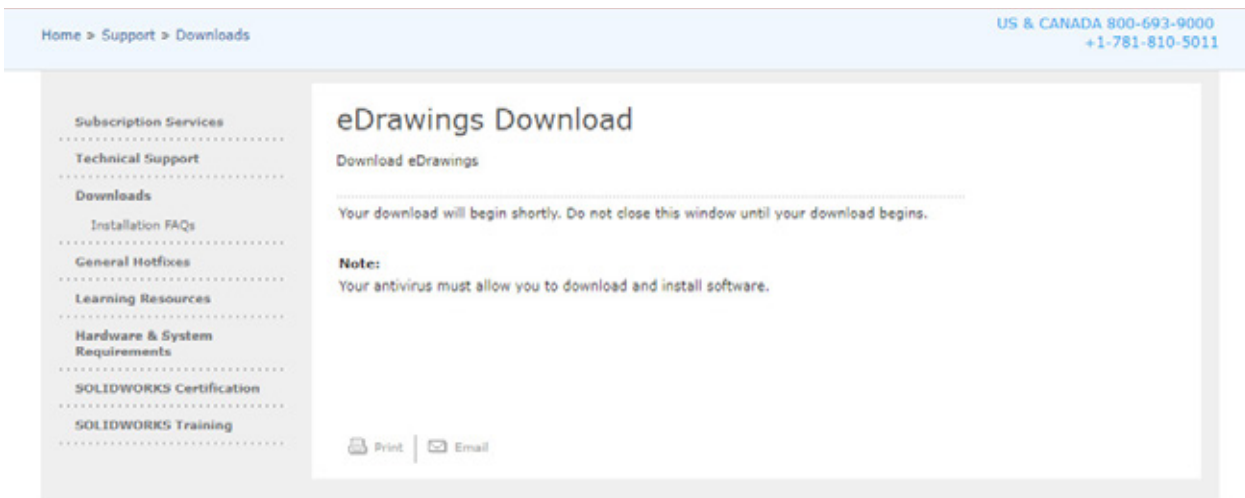

On the next page, check the < **eDrawings Viewer** > option and click the < **Download** > button.

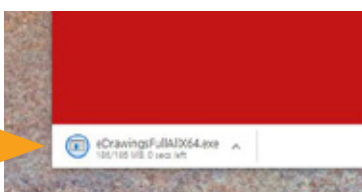

The next page is the licence agreement. Review as you desire, provided you agree with the statements, then scroll down the page and check the < **I confirm the accuracy of the statements above** > option, and click on < **Accept Agreement & Continue** >

The website will take you to the following page

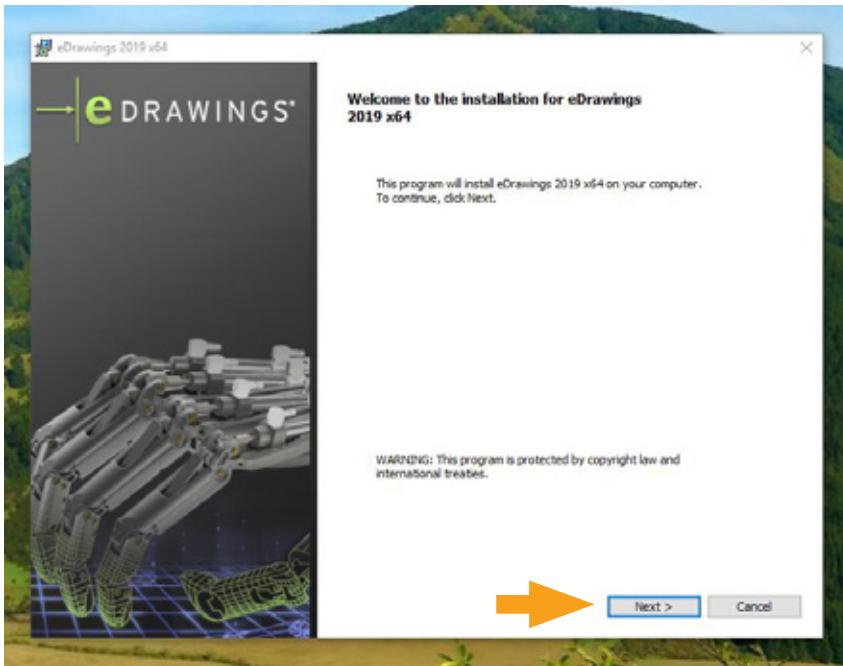

At the bottom of your browser the following executable file will be downloaded. Click on this file to open.

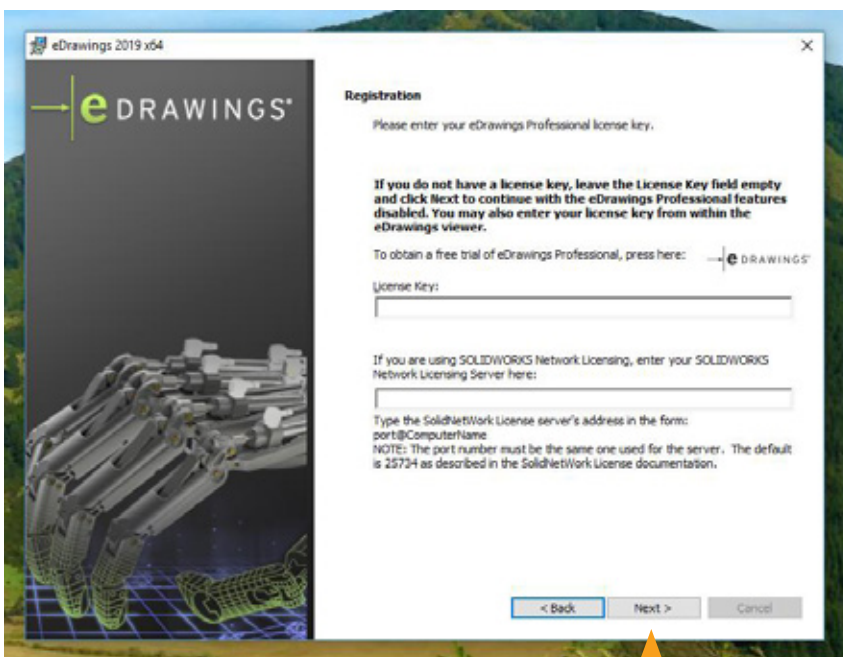

Windows may turn the screen black and ask “**Do you want this app to make changes to your device**”.

Please choose < **Yes** >

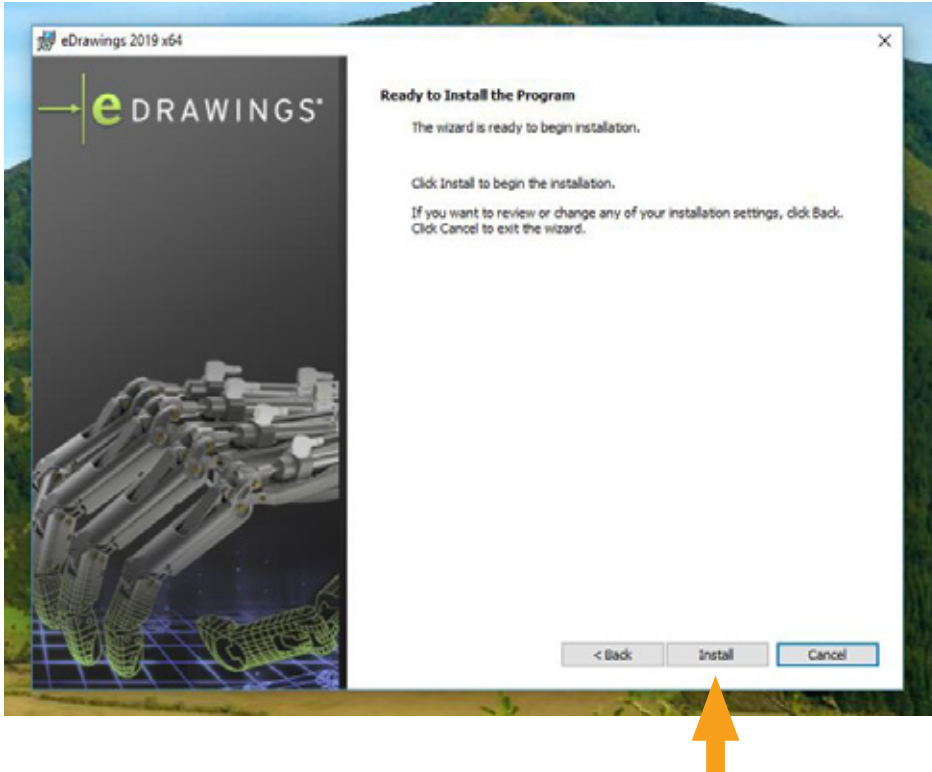

Windows extracts the file, opens the installer program and displays this screen. Click < **Next** >

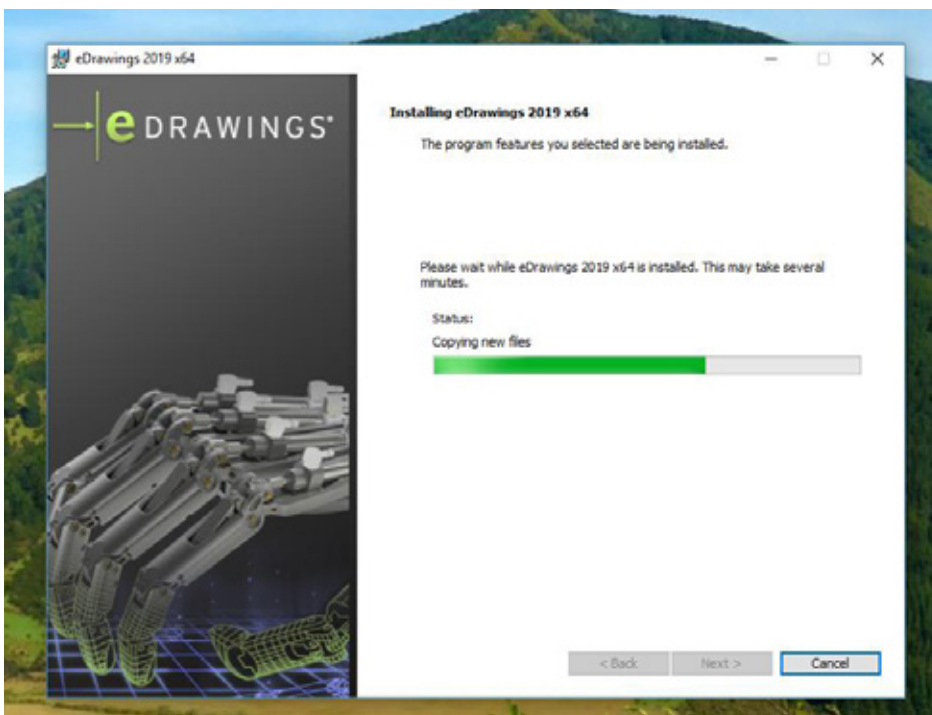

You will not have a licence key, so please click < **Next** > again

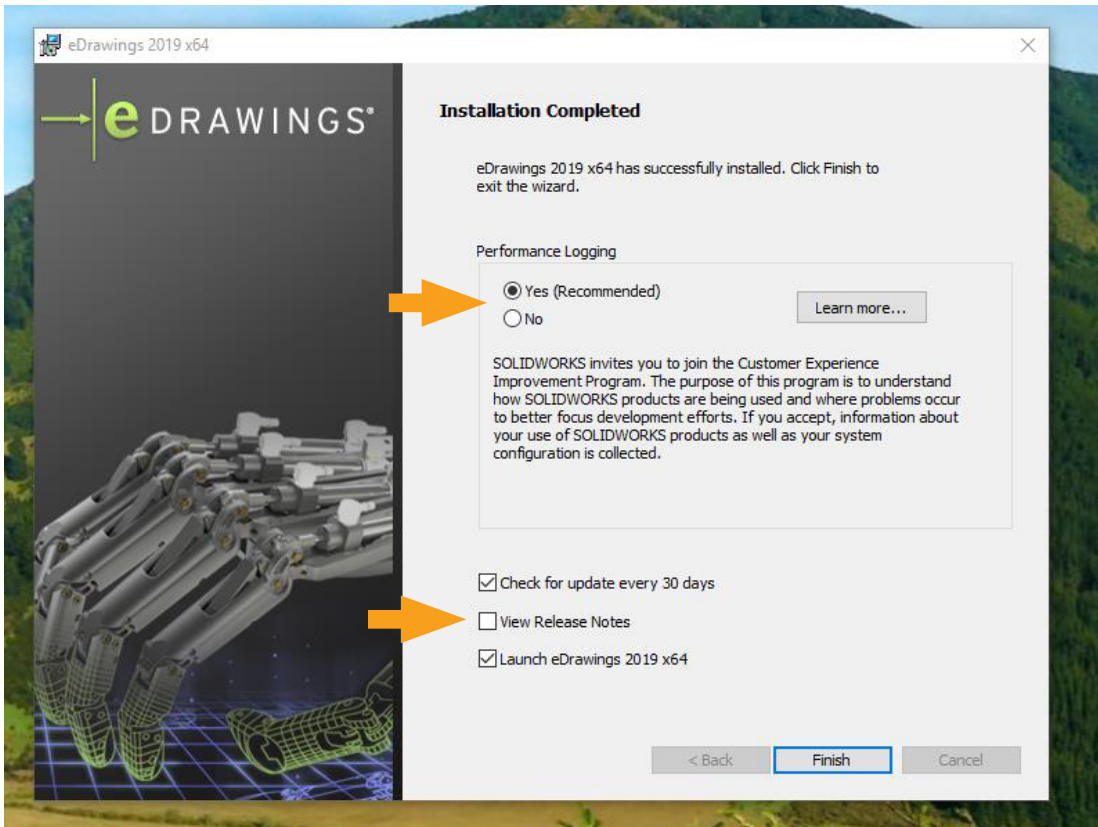

Click on < **Install** >

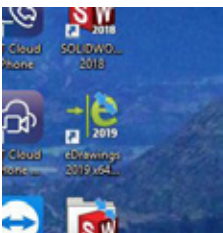

The software will start installing

The software will then finish and display this screen. You decide if you want Performance Logging (clicking < **No** > will not cause any issues), choose any of the three lower options as you wish, then, click < **Finish** >

Congratulations, you are now ready to start looking at the 3D CAD models we have sent you.

To learn how to use eDrawings, you can download our guide to “Using eDrawings®” click on our resource centre @ www.cambridge-dt.com to download.

If you have any queries or problems, do not hesitate to call us on **01223 662300** or email us at info@cambridge-dt.com or visit www.cambridge-dt.com for more information on how to use eDrawings®.
